# ENERGY FIBER

DENSITY 1L = 570 G

| WORK INTENSITY | DAILY DISTRIBUTION |
|----------------|--------------------|
| LIGHT          | From 1,5 to 3 kg   |
| MEDIUM         | From 2,5 to 4 kg   |

Supplement to forage for horses

## USE

For horses that tend to eat very quickly, it is preferable to serve the feed soaked. **Energy Fiber** with lukewarm water at a ratio of 1 part **Energy Fiber** to 2–3 parts water. Let it soak until the mixture breaks down. For particularly sensitive horses, wait 30 minutes to achieve a more liquid consistency.

Energy Fiber is used as a supplement to forage. We advise to feed at least 1.2 kg hay per 100 kg of the horse's body weight. For a 500 kg horse, this means a daily distribution of 6 kg of hay. Quantities should be adjusted taking into account the weight, body condition, age, activity level and breed of the horse, in addition to the type, quantity and quality of forage given.

## COMPOSITION

Wheat bran, Alfalfa high temperature dried, Lucerne pomace, Rape seed oil, Pea flakes, Dried beet pulp, Salt, Linseed extruded, Dried chicory pulp, Monocalcium phosphate, Dried apple pomace, Carrot dried, Rice bran, Fructo oligosaccharides, Chicory roots, Brewer's yeast, Wheat germ.

## ANALYSED CONSTITUENTS

|                 |        |
|-----------------|--------|
| Crude protein   | 13 %   |
| Crude cellulose | 15,7 % |
| Crude fats      | 8,5 %  |
| Ash             | 10 %   |
| Sodium          | 0,42 % |
| Starch          | 6,0 %  |
| Sugars          | 5,2 %  |

## AMINO ACIDS PER GROSS KG

|                      |        |
|----------------------|--------|
| Lysine               | 5,50 g |
| Methionine + cystine | 4,30 g |
| Methionine           | 1,90 g |
| Threonine            | 4,80 g |
| Tryptophan           | 1,90 g |
| Leucine              | 8,80 g |
| Arginine             | 7,50 g |
| Isoleucine           | 5,10 g |
| Valine               | 6,70 g |
| Phenylalanine        | 5,65 g |

## TECHNICAL CHARACTERISTICS PER GROSS KG

|                     |       |
|---------------------|-------|
| Calcium             | 14 g  |
| Phosphorus          | 6 g   |
| Magnesium           | 2,6 g |
| Potassium           | 15 g  |
| Digestible Nitrogen | 96 g  |
| Omega 3             | 8 g   |
| Omega 6             | 18 g  |

## VITAMINS AND TRACE ELEMENTS PER GROSS KG

|                  |            |
|------------------|------------|
| Vitamin A        | 15 000 U.I |
| Vitamin D3       | 2500 U.I   |
| Vitamin E        | 800 mg     |
| Vitamin B1       | 11 mg      |
| Vitamin B2       | 8 mg       |
| Vitamin B6       | 8 mg       |
| Vitamin B12      | 0,03 mg    |
| Vitamin PP       | 21 mg      |
| Vitamin C        | 825 mg     |
| Vitamin K3       | 0,91 mg    |
| Pantothenic acid | 7 mg       |
| Folic acid       | 0,51 mg    |
| Choline chloride | 200 mg     |
| Biotine          | 5,7 mg     |
| Iron             | 116 mg     |
| Copper           | 25 mg      |
| Zinc             | 101 mg     |
| Manganese        | 101 mg     |
| Iodine           | 1,53 mg    |
| Cobalt           | 0,38 mg    |
| Selenium total   | 1,1 mg     |

## EFFORT SUPPORT

DELAYS THE ONSET OF FATIGUE

RESULTS  
PROVEN \*

REINFORCES  
ANTIOXIDANT  
PROTECTION IN 6  
WEEKS

## STOMACH SUPPORT

RESULTS  
PROVEN \*

CONTAINS 20% OF  
THE REGUL DIGEST  
COMPLEX

## CEREAL FREE ENERGY SUPPLY

The super fibers soyabean pods, combined with rapeseed oil and linseed oil are varied and secured energy sources.

## VITALITY CARE

Contains raised levels of vitamins and a precise mineral balance to give optimum vitality.

## OMEGA 3 AND OMEGA 6

Rapeseed oil and linseed are sources of Omega 3 and Omega 6.

\*\* DOPING CONTROL PROCEDURE : Manufactured according to our quality control procedures, which include managing the risk of contamination of our feeds by natural substances that are prohibited under the rules covering equestrian sports.

\*Study presented at the BEVA Congress, the main European congress of equine veterinarians in Birmingham
