OLD MASTER

HEALTH

OLDER HORSES

NUTRITION

- For older horses
- Subject to stiff joints
- Difficult to maintain in condition

The difference which can be seen

Feeding guide:

For a horse of 500 kg:
Feed between 3 kg and 5 kg of OLD MASTER per day.

Density = 450 g / L

OLD MASTER should be fed alongside forage.

We recommend a minimum of 1kg of hay per 100 kg of live weight, so a daily ration of 5 kg of hay for a horse weighing 500 kg

Quantities should be adjusted according to the weight, body condition, age, level of activity, breed of the horse, taking into consideration the nature, quality and quantity of forage available.

COMPOSITION

Wheat feed, Barley flakes, Maize flakes, Dried alfalfa, Puffed barley, Cane sugar molasses, Rapeseed oil, Calcium carbonate, Flaked peas, Brewers' yeast, Extruded cooked linseed, Salt, Fructo-oligosaccharides, Dried carrots, Linseed oil, Wheat germ.

TECHNICAL CHARACTERISTICS per gross kg

Harpagophytum for joint support

Harpagophytum, boldo, ginseng and acerola known for their anti-inflammatory and tonic effects maintain mobility.

Prevention of cellular ageing

High levels of vitamins C, B and E prevent cellular damage linked to ageing and to stimulate the immune system.

Improve digestive comfort

Fructo-oligosaccharides preserve the balance of digestive bacteria. The use of flaked barley, flaked maize and puffed barley. The cooking processes involved in producing these cereals greatly improves their digestibility.

Supporting bone strength

High levels of minerals fight against mineral deficiency of the bones.

Pleasure to eat

OLD Master, is very appealing with its sugar coating.
