**Stamina for intense and prolonged activity**

- Horses difficult to maintain in form
- Gaining body mass without excitability
- Building up and maintaining the optimal energy reserves necessary to cope with high level energy expenditure
- Aiding longer term exertion: eventing, endurance.

*The difference which can be seen*

# MASTER KING

## Recommendations:

In order for your horse to make the best use of Master KING, we recommend starting to use it 3 months before the beginning of the season.

Density = 550 g / L

Gain mass without excitability	1 kg or 2 L per day for 3 to 4 months. Follow up this ration during periods of exertion
Build up and maintain the optimal energy reserves necessary for exertion	
Keeping a stallion in good form and condition	2 kg or 4 L per day up to the full ration.
Preparation for breeding or sale	1 kg or 2 L per day for 3 to 4 months.
Medium duration exertions such as eventing	From 3.3 to 5.5 kg or 6 to 10 L per day
Sustained exertion (endurance)	Full ration

Quantities should be adjusted taking into account the weight, body condition, age, activity level and breed of the horse, in addition to the type, quantity and quality of forage given.

## COMPOSITION

Wheat bran, Maize flakes, Dried alfalfa, Barley flakes, Rapeseed oil, Expanded barley, Rice bran, Calcium carbonate, Flaked peas, Salt, Cooked extruded linseed, Dried carrots, Di-calcium phosphate, Wheat germ.

## TECHNICAL CHARACTERISTICS per gross kg

Calcium	12 g
Phosphorus	6 g
Magnesium	2.9 g
Potassium	10.3 g
Digestible Nitrogen	83 g
Oméga 3	10 g
Oméga 6	28 g

## TECHNICAL CHARACTERISTICS per gross kg

Vitamin A	15,000 IU
Vitamin D3	2,500 IU
Vitamin E	400 mg
Vitamin B1	11 mg
Vitamin B2	8 mg
Vitamin B6	8 mg
Vitamin B12	0.03 mg
Vitamin PP (Niacin)	21 mg
Vitamin C	84 mg
Vitamin K3	0.9 mg
Pantothenic acid	6.5 mg

## ANALYSED CONSTITUENTS

Crude protein	12 %
Crude cellulose	8 %
Crude fats	10 %
Ash	7 %
Sodium	0.26 %
Starch	18.0 %

## AMINO ACIDS per gross kg

Lysine	4.4 g
Methionine + cystine	4.1 g
Methionine	1.9 g
Threonine	3.9 g
Tryptophan	1.5 g
Leucine	8.2 g
Arginine	6.6 g
Isoleucine	4.2 g
Valine	5.5 g
Phenylalanine	4.9 g

Folic acid	0.5 mg
Choline chloride	201 mg
Biotin	0.2 mg
Iron	104 mg
Copper	35 mg
Zinc	141 mg
Manganese	100 mg
Iodine	1.5 mg
Cobalt	0.45 mg
Selenium total	0.56 mg

Feed as a replacement for the same quantity (in Kg) of the usual feed.

MASTER KING should be used as a supplement or replacement to the normal feed, in addition to forage. If you are using it as a replacement, we recommend that you introduce MASTER KING gradually.

# Stamina for intense and prolonged activity

## Maintains optimal body condition

Contains ingredients that are easily digestible and efficiently used by the horse; enables the building up and maintaining of energy reserves to cope with intense energy expenditure.

## Non-heating

Non-heating energy sources.

## Stamina

The fatty acids Omega 3 and Omega 6 promote the increase in stamina.

## Promotes production of muscle tissue

Raises the calorific value and energy density of the ration.

## Promotes sustained exertion

Rice bran, pressed rapeseed oil and extruded linseed oil are the most suitable sources of energy for sustained and intense exertion.

## Helping muscle function

Enriched in vitamin E and selenium, these antioxidants participate in the good functioning of muscles.

✓ **DOPING CONTROL PROCEDURE:** manufactured according to our quality control procedures, which include managing the risk of contamination of our feeds by natural substances that are prohibited under the rules covering equestrian sports.
